- **Technical Skills:** Qualitative & Quantitative Research, Statistical Analysis, Program Management, Teaching, Legislative Analysis, Project Leadership, Spanish Proficiency, Emergency Management, Data Visualization

Relevant Professional Experience

Rate Analyst <i>July 2025 – Present</i>	ElectriCities of North Carolina
• Led multi-utility financial forecasting initiatives in partnership with city managers, finance directors, and utility leadership across 19 municipal electric systems, delivering annual retail and wholesale revenue projections supporting planning and stewardship of tens to hundreds of millions of dollars in utility revenue. • Provided economic and infrastructure impact modeling for major industrial recruitment and economic development projects by forecasting load growth, capital investment requirements, and long-term revenue implications, providing decision-ready analysis used by member utilities to evaluate high-value development opportunities. • Strengthened rate and financial governance by supporting cost of service studies, rate design modernization efforts, and performing comprehensive QA/QC audits of retail billing systems while managing surplus wholesale power settlement and invoicing between NCMPA1 and external counterparties. • Transformed forecasting, billing, and reporting processes by designing and deploying scalable VBA-driven automation and data integration frameworks that reduced manual data compilation, improved forecasting consistency across utilities, and increased overall efficiency.	

Energy Economics Specialist

Hawaii State Energy Office (HSEO)

May 2023 – September 2024

- Spearheaded a successful \$395k grant application for national lab support, securing critical resources that will advance Hawaii's energy storage research, increase understanding of natural resource availability, and characterize the usefulness en route to net-zero emissions.
- Developed VBA-powered Excel models to forecast revenue requirements, generation costs, and rate impacts for the Community Energy Resilience Action Plan (CERAP). Led economic analysis and rate forecasting for CERAP 2.0 on Moloka'i, supporting a first-of-its-kind, community-led energy planning effort combining disaster resilience and net-zero goals.
- Managed the State Emergency Support Function (SESF-12, Energy) during the Maui Brushfires, coordinating effectively with federal and local agencies to ensure continuity of energy resources during crises.
- Managed contract with Honolulu County's Department of Planning and Permitting (DPP) to accelerate the solar and storage permitting process, with a focus on reducing backlogs and addressing challenges in FEMA flood zones to support safe, resilient energy development.

University Lecturer: Development Economics & Introduction to Statistics

University of Hawaii Manoa

Summer 22 and 24

- Designed an engaging, condensed syllabus for an intensive six-week online statistics course, resulting in high student satisfaction ratings and improved test scores.
- Created hands-on assignments and adaptive learning techniques that improved students' analytical skills.

Research Fellow

University of Hawaii Manoa

Aug 2022 – May 2023

- Constructed a 40-year longitudinal climate and economic dataset, merging data from multiple sources to utilize climactic data in behavioral analysis.
- Conducted advanced Probit & Logit econometric analyses on local flood events, producing predictive models that now serve as benchmarks in Hawaii's economic disaster preparedness strategy.

Graduate Teaching Assistant

University of Hawaii Manoa

Aug 2021 – May 2023

- Led tutorials and review sessions for over 300 students, enhancing comprehension of challenging topics in macroeconomics, microeconomics, and statistics.

Non-Profit Consultant

University of Pittsburgh, Non-Profit Clinic

Jan 2020 – Apr 2021

- Client: Alpha House Inc, Therapeutic Community for Substance Use Disorder
- Developed strategic recommendations based on extensive research, leading to evidence-based program designs that enhanced substance use treatment effectiveness.
