2. Do you have any additional comments about this course and/or instructor?

This course is easy to follow the instructions for any work. The professor use the homework problem to make it easier for the quiz.

I really appreciate how organized everything in the course was. I have had very few instructors utilize Laulima in the way that Luke did and found it to be extremely beneficial. Especially in a fast-paced 6 week summer course, the checklists and linked materials for each week, as well as the time we should expect to spend on the material was greatly appreciated. It was clear that he spent a lot of time putting the course together in a way to cover all the necessary material. Luke was also great about answering any questions and communicating with the class.

Material was a bit confusing to follow at times, but probably just because it was a crowd-sourced and thankfully free online resource. Instructor was available for questions and answered promptly.

As an introductory class it was enjoyable. The asynchronous format fit well for this class since a lot of the material wasn't too complicated. I knew if i needed extra practice the resources were available. Great class and profesor.

No

Instructor was very helpful and readily available and open to questions and suggestions, and would email to check in if falling behind in the course and offered options to help those struggling.

Dear Professor,

I want to thank you for your support so far while taking part in the summer program I appreciate your taking the time to teach ECON 442. I have enjoyed the course so much and found it very useful the weekly resources recently, especially from weeks 1-6, helped me to keep my focus on the learning materials.

The structured approach and the resources available have made an enormous difference in my understanding of the subject matter. Thank you so much again for guiding me through this course, which has already turned out to be such an enriching experience.
