

SAMPLE ANALYTICAL PROJECT

A placeholder report demonstrating downloadable project materials

Purpose

This sample PDF confirms that project reports can be displayed and downloaded from the portfolio. Replace it with a finished report when the project library is populated.

Suggested project structure

Question — State the decision or research question.

Data — Identify sources, dates, limitations, and update frequency.

Methods — Explain processing, validation, analysis, and visualization choices.

Results — Present findings in clear language, supported by tables and figures.

Reproducibility — Link the code, processed data, and technical documentation.

Files this portfolio can distribute

Format	Example use
PDF	Reports and publications
DOCX	Editable writing samples
XLSX / CSV	Data and calculations
R / PY	Analysis scripts
ZIP	Complete project packages
